C-DIT Spreaders are a versatile, all-round machine designed to handle fertiliser, seed, and magnesium as jobs change through the seasons. Easily towed behind an ATV or side by side, they deliver accurate, even spreading with straightforward operation. Handy PVC covers help keep loads protected between runs, making C-DIT a practical, reliable choice for year-round farm use.

C-DIT 165

FEATURES

- Suitable for seed, fertiliser and magnesium.
- Aggressive agitation prevents 'bridging'
- Spinner with 12m spread width (at 10 kph)
